**In *We're Red, Weird, and Blue*, acclaimed journalist and author Kevin Drum takes readers on a journey into the heart of the political divide in America.**

Through interviews with voters in red states and blue states, Drum explores the complex reasons why people vote the way they do. He finds that the divide is not simply about ideology, but also about culture, identity, and values.

Drum argues that the political divide is not going to disappear anytime soon. But he also believes that it is possible to bridge the gap between red and blue America. He offers a number of concrete suggestions for how to do this, including:

- **Encourage more civil discourse.** We need to find ways to talk to each other about politics without resorting to name-calling or insults.
- **Promote greater understanding of different perspectives.** We need to make an effort to understand why people who disagree with us believe what they do.
- **Work together to solve common problems.** We need to find ways to work together to address the challenges that face our country, regardless of our political differences.

*We're Red, Weird, and Blue* is a deeply personal and thought-provoking exploration of the political divide in America. It is a must-read for anyone who wants to understand the current state of our country and who believes that a better future is possible.

## **Praise for We're Red, Weird, and Blue**
